

# Kyle Chritz

## Computer Science

Very interested in imerging fields such as artificial intelligence or machine learning. I believe autonomy is the future and I would like to be a part of it. I'm also interested in web development, game development, and meta dev tools like unreal engine 5. <https://kych0.github.io/>

## Experience

### Delivery driver

[Gopuff](#)

June 2021 - Current

Grocery delivery service, picked up and delivered orders. Fairly relaxed job.

### Quality Control Technician

[Snak King](#)

June 2019 - August 2020

Worked in the QA testing lab. Tested chips, popcorn and corn puffs for moisture, salt, oil and other various attributes to ensure product is quality and ready for consumers. Fast paste work environment where multitasking and communication skills were necessary.

### Delivery driver

[Thai Pavillion](#)

2017 - 2019

Packed and delivered orders, took phone orders, inventory, stocked, minor food prep.

### Maintenance assistant

[Mason Properties](#)

2016 - 2017

Apprenticeship, inspected and prepared apartments for the next tenants, everything from replacing blinds to rotating the locks, thoroughly inspected utilities, repaired or replaced utilities, and general maintenance.

### Agriculture dept.

[Farm & Fleet](#)

2014 - 2016

Started as cashier, promoted to the ag. dept. Where I would take phone calls, stock, inventory, cleaned, discussed customer's needs than helped customers find exactly what they needed.

Achieved my associates of science degree in 2020

## Current skills

C++ , Html, CSS, Javascript

MS office

Computer skills

Customer service

Quality control

## A bit about me.

My hobbies are mountain biking, hiking and exploring, snowboarding and beach days. I'm an adventurous person and wouldn't mind relocating for work. I'm a quick learner and very responsible and respectful. I believe that I could fit into just about any work environment and excell at it.
