Computer Science

I am interested in emerging STEM fields such as artificial intelligence and machine learning. I believe autonomy is the future and would like to be a part of it. I am also interested in web and game development. Some experience with Dev. tools like Unreal Engine 5 . My landing page <https://kych0.github.io/>

Experience

Delivery Driver

[Gopuff](#) June 2021- April 2022

[Thai Pavilion](#) 2017-2019

[Gopuff](#): Grocery delivery service, picked up and delivered orders.

[Thai Pavilion](#): Packed and delivered orders, took phone orders, inventory, stocked, minor food prep.

Quality Control Technician

[Snak King](#) june 2019- August 2020

Worked in the QA testing lab where I followed and recorded processes and procedures. Tested potato chips, popcorn and corn puffs for moisture, salt, oil and other attributes to ensure good quality. Had authority to shut down the line if out of spec. Fast paced work environment where teamwork and communication skills were necessary to make corrections as soon as possible.

Maintenance Assistant

[Mason Properties](#) 2016-2017

Apprenticeship. Inspected and prepared apartments for the next tenants, everything from replacing blinds to rotating the locks. Thoroughly inspected utilities, repaired or replaced utilities, and general maintenance.

Agriculture Dept. Associate

[Farm & Fleet](#) 2014-2016

Started as cashier, promoted to the ag. dept. Where I would take phone calls, stocked, inventory, cleaned, discussed customer's needs than helped customers find exactly what they needed.

A bit about me.

My hobbies are spending time outdoors; mountain biking, hiking and exploring, snowboarding and beach days. I'm an adventurous person and wouldn't mind relocating for work. **I am a quick learner and very responsible and respectful. I believe that I could fit into just about any work environment and excel at it.**
